

Joel Gillespie

Garden Restoration Services

This is a great time to clean up and beautify a southern garden, and prepare for a beautiful 2014!

- Is your yard overgrown?
- Do you have vines growing smothering your trees and shrubs?
- Do you have unwanted trees growing in your beds?
- Do you get overwhelmed thinking how you might bring it back into shape?
- Do you have ivy swarming your azaleas and climbing your trees?
- Do you have shrubs that have outgrown their spaces or are ungainly?
- Do you have a bed or defined area of your yard that needs a whole new plan?
- Are you interested in adding more native plants to your garden?
- Do you have empty spaces in your beds that need to be filled by new plantings?

Maybe I can help you.

My name is Joel Gillespie. I grew up in the Forest Lake area of Columbia and cut my gardening teeth in my grandmother Mary Gillespie's beautiful yard on McGregor Drive. I majored in Biology (with a focus in Botany) at Clemson and at South Carolina, and have been gardening my whole life. I love transforming and keeping up beautiful southern gardens!

Check out my web site at <http://joelgillespie.com>.

You can reach me at **803-767-0575** or gillespie.joel@gmail.com.

I am also available for ongoing flower bed/shrub pruning and general care, on a quarterly, monthly, bi-monthly basis - whatever is best. I use mostly manual along with some cordless tools and shy away from herbicides and pesticides.
